NOTES TO UNAUDITED PRO FORMA COMBINED STATEMENTS OF INCOME

1. BASIS OF PRESENTATION

The Unaudited Pro Forma Combined Statement of Income for the nine months ended September 30, 1996 gives effect to the acquisition by the Company of the Nephrology Services Business of Caremark International Inc. on March 15, 1996 (the "Caremark Facilities"), two facilities located in South Carolina on March 15, 1996 (the "South Carolina Facilities") and individually insignificant acquisitions consummated during the period January 1, 1996 through October 30, 1996, and individually insignificant acquisitions which were probable as of October 30, 1996, in each case as if such acquisitions were consummated on January 1, 1996. The Unaudited Pro Forma Combined Statement of Income for the nine months ended September 30, 1996 also gives effect to the retirement of all outstanding 12% Senior Subordinated Discount Notes in July and September 1996 (the "Debt Retirement") as if it occurred on January 1, 1996.

The Unaudited Pro Forma Combined Statement of Income for the seven months ended December 31, 1995 gives effect to the acquisition by the Company of three facilities located in the Miami area on July 17, 1995 (the "Miami Facilities"), two facilities located in Texas on December 1, 1995 (the "Southwest Facilities"), the Caremark Facilities, the South Carolina Facilities and individually insignificant acquisitions consummated during the

period June 1, 1995 through October 30, 1996, and individually insignificant acquisitions which were probable as of October 30, 1996, in each case as if such acquisitions were consummated on June 1, 1995. The Unaudited Pro Forma Combined Statement of Income for the seven months ended December 31, 1995 also gives effect to the Company's initial public offering on October 30, 1995 (the "Initial Public Offering"), the Company's secondary offering on April 3, 1996 (the "Secondary Offering") and the Debt Retirement as if such transactions occurred on June 1, 1995.

The Unaudited Pro Forma Combined Statement of Income for the fiscal year ended May 31, 1995 gives effect to the acquisition by the Company of five facilities located in the Chicago area on May 1, 1995 (the "Chicago Facilities"), the Miami Facilities, the Caremark Facilities, the South Carolina Facilities and individually insignificant acquisitions consummated during the period June 1, 1994 through October 30, 1996, and individually insignificant acquisitions which were probable as of October 30, 1996, in each case as if such acquisitions were consummated on June 1, 1994. The Southwest Facilities, which commenced operations in April 1995, had de minimis operations during the twelve months ended May 31, 1995 and, therefore, are not included in the Unaudited Pro Forma Combined Statement of Income for the fiscal year ended May 31, 1995. The Unaudited Pro Forma Combined Statement of Income for the fiscal year ended May 31, 1995 also gives effect to the sale by Tenet Healthcare Corporation of approximately 75% of its ownership interest in the Company to DLJ Merchant Banking Partners, L.P. and certain of its affiliates in August 1994 (the "August 1994 Transaction"), the Initial Public Offering, the Secondary Offering and the Debt Retirement as if such transactions occurred on June 1, 1994.

The pro forma adjustments are based on consideration exchanged, including the estimated fair value of assets acquired, liabilities assumed and common stock issued. The actual adjustments, which will be based on valuations of fair value as of the date of acquisition, may differ from those made herein.

Net income per common share data and weighted average number of shares and equivalents outstanding for the nine months ended September 30, 1996, for the seven months ended December 31, 1995 and for the fiscal year ended May 31, 1995 assume that any shares issued in connection with the acquisitions were outstanding from January 1, 1996 and June 1, 1995 and 1994, respectively.

2. PRO FORMA ADJUSTMENTS

(a) To reflect the redemption of 12% Senior Subordinated Discount Notes as if it occurred on January 1, 1996. Specifically to reduce interest expense assuming the redemption, offset by borrowings under the Senior Credit Facility and further offset by interest income foregone.

During the quarter ended September 30, 1996, the Company repurchased \$65 million, at maturity, of the 12% Senior Subordinated Discount Notes for \$67.3 million resulting in an extraordinary loss, net of tax, of \$7.7 million which is not included in the Unaudited Pro Forma Combined Statement of Income.

TOTAL RENAL CARE HOLDINGS, INC.

NOTES TO UNAUDITED PRO FORMA COMBINED STATEMENTS OF INCOME--(CONTINUED)

- (b) To eliminate management fees earned by the combined entities.
- (c) To amortize goodwill, non-compete agreements and patient charts resulting from the acquisitions on a straight-line basis over 25, 10 or 5 years, respectively.
- (d) To eliminate interest expense on borrowings not assumed by the Company.
- (e) To record interest expense resulting from acquisitions funded in whole or in part by borrowings from the senior credit facility.
- (f) To record income tax effects related to the pro forma adjustments.
- (g) To record the minority interest income from five partnerships acquired.
- (h) Income per share and weighted average number of common shares and

equivalents outstanding assume 62,000 shares and share equivalents issued to purchase the individually insignificant acquisitions were outstanding for the entire nine-month period ended September 30, 1996.

Income per share and weighted average number of common shares and equivalents outstanding also assume that shares issued in the Secondary Offering to the extent that cash generated from such shares were used to purchase facilities and were outstanding from January 1, 1996 to the date of the Secondary Offering as follows:

Caremark Facilities.....	1,741,000
All other acquisitions.....	926,000

(i) To reflect the Initial Public Offering and subsequent use of proceeds to redeem 12% Senior Subordinated Discount Notes as if it occurred on June 1, 1995. Specifically, to reduce interest expense assuming paydown of a portion of the 12% Senior Subordinated Discount Notes and amounts outstanding under the line of credit. On December 7, 1995 the Company redeemed 35% of the accreted value of the 12% Senior Subordinated Discount Notes equaling \$28,749,000 at a redemption premium of 111% for a redemption price of \$31,912,000. An extraordinary loss of \$2,555,000 (net of income tax effect) resulted from this transaction which is not included on the Unaudited Pro Forma Combined Statement of Income. The additional reduction in interest expense incurred under the line of credit assumes that cash generated by the stock offering was used to purchase all facilities acquired and that the line of credit was not drawn for these acquisitions.

(j) To reflect the Debt Retirement as if it occurred on June 1, 1995. See note (a) above.

(k) Income per share and weighted average number of common shares and equivalents outstanding assume the following shares and share equivalents issued to purchase facilities were outstanding for the entire seven month period ended December 31, 1995:

Miami Facilities.....	333,000
Southwest Facilities.....	35,000
All other acquisitions.....	471,000

Income per share and weighted average number of common shares and equivalents outstanding also assume that shares issued in the Initial Public Offering and Secondary Offering to the extent that cash generated from

F-8

TOTAL RENAL CARE HOLDINGS, INC.

NOTES TO UNAUDITED PRO FORMA COMBINED STATEMENT OF INCOME--(CONTINUED)

such shares (instead of the senior credit facility) would have been used to purchase facilities were outstanding from June 1, 1995 to the date of the Initial Public Offering or December 31, 1995, respectively, as follows:

Chicago Facilities.....	505,000
Miami Facilities.....	345,000
South Carolina Facilities.....	803,000
Caremark Facilities.....	1,741,000
All other acquisitions.....	2,630,000

Income per share and weighted average number of common shares and equivalents also assume that 2,233,000 shares issued in the Initial Public Offering to redeem the 12% Senior Subordinated Discount Notes were outstanding from June 1, 1995 to the date of the Initial Public Offering.

(l) To reflect the August 1994 Transaction as if it occurred on June 1, 1994. Specifically, to reflect an increase in general and administrative expenses (\$625,000) for estimated incremental costs of the Company as a stand-alone entity, increases in interest expense (\$1,811,000), amortization expenses (\$105,000) and bank fees (\$42,000) related to the issuance of the 12% Senior Subordinated Discount Notes and a corresponding decrease in income taxes (\$1,032,000) for the tax effect of the pro forma adjustments.

(m) To reflect the Initial Public Offering and subsequent use of proceeds to redeem subordinated debt as if it occurred on June 1, 1994. See note (i) above.

(n) To reflect the Debt Retirement as if it occurred on June 1, 1994. See note (a) above.

(o) Income per share in the audited financial statements for the year ended May 31, 1995 was computed as if the August 1994 Transaction had occurred on June 1, 1994. Income per common share and weighted average number of common shares and equivalents outstanding computed using such assumptions were \$0.22 and 15,316,000, respectively.

Income per share and weighted average number of common shares and equivalents outstanding assume the following shares and share equivalents issued to purchase facilities were outstanding for the entire year:

Chicago Facilities.....	515,000
Miami Facilities.....	333,000
All other acquisitions.....	1,029,000

Income per share and weighted average number of common shares and equivalents outstanding also assume that shares issued in the Initial Public Offering and Secondary Offering to the extent that cash generated from such shares (instead of the senior credit facility) would have been used to purchase facilities were outstanding for the entire year as follows:

Chicago Facilities.....	707,000
Miami Facilities.....	483,000
South Carolina Facilities.....	803,000
Caremark Facilities.....	1,741,000
All other acquisitions.....	2,991,000

Income per share and weighted average number of common shares and equivalents also assume that 2,233,000 shares issued in the Initial Public Offering to redeem the 12% Senior Subordinated Discount Notes were outstanding for the entire period.

(p) To eliminate the minority interest related to the acquisition of the remaining interest in a facility. The facility balances are included in both the Company historical totals and the Other Combined Acquisitions historical totals and, therefore, are adjusted in the Pro Forma Adjustments column.
