- **Cash Flow:** For the rolling twelve months ended June 30, 2011 operating cash flow was \$816 million and free cash flow was \$518 million. For the three months ended June 30, 2011 operating cash flow was \$204 million and free cash flow was \$125 million.

Operating income for the three and six months ended June 30, 2011 including this item was \$247 million and \$483 million, respectively. Operating income for the three and six months ended June 30, 2010 was \$242 million and \$485 million, respectively.
- **Volume:** Total treatments for the second quarter of 2011 were 4,777,817, or 61,254 treatments per day, representing a per day increase of 7.1% over the second quarter of 2010. Non-acquired treatment growth in the quarter was 4.6% over the prior year's second quarter. Our normalized non-acquired treatment growth in the quarter was also 4.6% over the prior year's second quarter.
- **Effective Tax Rate:** Our effective tax rate was 35.7% and 35.6% for the three and six months ended June 30, 2011, respectively. This effective tax rate is impacted by the amount of third party owners' income attributable to non-tax paying entities. The effective tax rate attributable to DaVita Inc. was 40.0% for the three and six months ended June 30, 2011. We still expect our effective tax rate attributable to DaVita Inc. for 2011 to be in the range of 39.0% to 40.0%.
- **Share Repurchases:** During the first six months of 2011, we repurchased a total of 3,710,086 shares of our common stock for \$316.1 million, or an average price of \$85.20 per share. As of June 30, 2011, a total of \$25.5 million of share repurchases had not yet been settled in cash. We also repurchased 84,600 additional shares of our common stock for \$7.3 million, or an average price of \$85.83 per share during the period July 1, 2011 through July 31, 2011. As a result of these transactions, our remaining board authorization for share repurchases as of July 31, 2011 is approximately \$358 million.
- **Center Activity:** As of June 30, 2011, we operated or provided administrative services at 1,669 outpatient dialysis centers serving approximately 131,000 patients, of which 1,637 centers are consolidated in our financial statements. During the second quarter of 2011, we acquired and opened a total of 27 centers.

Outlook

We are raising our operating income guidance for 2011 to now be in the range of \$1,080 million to \$1,120 million. This guidance excludes the non-cash goodwill impairment charge recorded in the second quarter of 2011. Our previous operating income guidance for 2011 was in the range of \$1,040 million to \$1,100 million. We are raising our operating cash flow guidance for 2011 to now be in the range of \$900 million to \$980 million. Our previous operating cash flow guidance for 2011 was in the range of \$840 million to \$940 million. We are also raising our operating income guidance for 2012 to now be in the range of \$1,200 million to \$1,300 million. Our previous operating income guidance for 2012 was in the range of \$1,100 million to \$1,200 million. The guidance above assumes the DSI acquisition closes in the third quarter of 2011. These projections and the underlying assumptions involve significant risks and uncertainties, including those described below and actual results may vary significantly from these current projections.

We will be holding a conference call to discuss our results for the second quarter ended June 30, 2011 on August 3, 2011 at 5:00 p.m. Eastern Time. The dial in number is (800) 399-4406. A replay of the conference call will be available on DaVita's official web page, www.davita.com, for the following 30 days.

This release contains forward-looking statements, within the meaning of the federal securities laws, including statements related to our 2011 and 2012 operating income, our 2011 operating cash flows and our 2011 expected effective tax rate attributable to DaVita Inc. Factors that could impact future results include the uncertainties associated with governmental regulations, general economic and other market conditions, competition, accounting estimates, the variability of our cash flows and the risk factors set forth in our SEC filings, including our quarterly report on Form 10-Q for the first quarter ended March 31, 2011 and subsequent quarterly reports to be filed on Form 10-Q. The forward-looking statements should be considered in light of these risks and uncertainties.

These risks and uncertainties include those relating to:

- *the concentration of profits generated from commercial payor plans,*
- *continued downward pressure on average realized payment rates from commercial payors, which may result in the loss of revenue or patients,*
- *a reduction in the number of patients under higher-paying commercial plans,*
- *a reduction in government payment rates under the Medicare End Stage Renal Disease program or other government-based programs,*
- *the impact of health care reform legislation that was enacted in the United States in March 2010,*
- *changes in pharmaceutical or anemia management practice patterns, payment policies, or pharmaceutical pricing,*
- *our ability to maintain contracts with physician medical directors,*
- *legal compliance risks, including our continued compliance with complex government regulations,*
- *investigations by various governmental entities and potential other related proceedings,*
- *continued increased competition from large and medium-sized dialysis providers that compete directly with us,*
- *our ability to complete any acquisitions, mergers or dispositions that we might be considering or announce, or integrate and successfully operate any business we may acquire, and*
- *expansion of our operations and services to markets outside the United States, or to businesses outside of dialysis.*

We base our forward-looking statements on information currently available to us at the time of this release, and we undertake no obligation to update or revise any forward-looking statements, whether as a result of changes in underlying factors, new information, future events or otherwise.

This release contains non-GAAP financial measures. For reconciliations of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, see the attached reconciliation schedules. For the reasons stated in the reconciliation schedules, we believe our presentation of non-GAAP financial measures provides useful supplemental information for investors.

- (2) Consolidated percentages of revenue are comprised of the dialysis and related lab services business, other ancillary services and strategic initiatives, as well as stock-based compensation expenses.
- (3) This is a non-GAAP financial measure. It excludes \$7.6 million and \$8.0 million, respectively, of a debt discount associated with our Term Loan B for the quarters ended June 30, 2011 and March 31, 2011 that is not actually outstanding debt principal. The quarter ended June 30, 2010 excludes \$1.8 million of the unamortized balance of a debt premium associated with our senior notes that is not actually outstanding debt principal.
- (4) This includes the Term Loan B outstanding amount for the quarters ended June 30, 2011 and March 31, 2011, since the Term Loan B bears interest at LIBOR (floor of 1.50%) plus a margin of 3.00%.

Note 1: Calculation of the Leverage Ratio

Under the Company's Senior Secured Credit Facilities (Credit Agreement), the leverage ratio is defined as all funded debt plus the face amount of all letters of credit issued, minus cash and cash equivalents, divided by "Consolidated EBITDA". The leverage ratio determines the interest rate margin payable by the Company for its Term Loan A and revolving line of credit under the Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The following leverage ratio was calculated using "Consolidated EBITDA" as defined in the Credit Agreement. The calculation below is based on the last twelve months of "Consolidated EBITDA", pro forma for routine acquisitions that occurred during the period. The Company's management believes the presentation of "Consolidated EBITDA" is useful to investors to enhance their understanding of the Company's leverage ratio under its Credit Agreement.

1. Net income attributable to DaVita Inc. excluding after-tax non-cash goodwill impairment charge and debt redemption charges and diluted earnings per share attributable to DaVita Inc. excluding after-tax non-cash goodwill impairment charge and debt redemption charges.

We believe that net income attributable to DaVita Inc. excluding after-tax non-cash goodwill impairment charge and debt redemption charges enhances a user's understanding of our normal net income attributable to DaVita Inc. and diluted earnings per share attributable to DaVita Inc. for these periods by providing a measure that is more meaningful because it excludes a non-cash goodwill impairment charge that resulted from a decrease in the implied fair value of goodwill below its carrying amount associated with our infusion therapy business during the second quarter of 2011 and also from the redemption of \$200 million aggregate principal amount of our outstanding 6 5/8% senior notes due 2013 that occurred in the second quarter of 2010 and accordingly, is more comparable to prior periods and indicative of consistent net income attributable to DaVita Inc. and diluted earnings per share attributable to DaVita Inc. These measures are not measures of financial performance under United States generally accepted accounting principles (GAAP) and should not be considered as an alternative to net income attributable to DaVita Inc. and diluted earnings per share attributable to DaVita Inc.

2. Operating income excluding pre-tax non-cash goodwill impairment charge.

We believe that operating income excluding pre-tax non-cash goodwill impairment charge enhances a user's understanding of our normal operating income for these periods by providing a measure that is more meaningful because it excludes a non-cash goodwill impairment charge that resulted from a decrease in the implied fair value of goodwill below its carrying amount associated with our infusion therapy business during the second quarter of 2011 and accordingly, is more comparable to prior periods and indicative of consistent operating income. This measure is not a measure of financial performance under United States generally accepted accounting principles (GAAP) and should not be considered as an alternative to operating income.

3. Effective Income Tax Rates

We believe that reporting the effective income tax rate attributable to DaVita Inc. enhances an investor's understanding of DaVita's effective income tax rate for the periods presented because it excludes noncontrolling owners' income that primarily relates to non-tax paying entities and accordingly is more comparable to prior periods presentations regarding DaVita's effective income tax rate and is more meaningful to an investor to fully understand the related income tax effects on DaVita Inc.'s operating results. This is not a measure under GAAP and should not be considered as an alternative to the effective income tax rate calculated in accordance with GAAP.

Effective income tax rate as compared to the effective income tax rate attributable to DaVita Inc. is as follows:

| | Three months ended | | | Six months ended |

4. Free cash flow

Free cash flow represents net cash provided by operating activities less income distributions to noncontrolling interests and capital expenditures for routine maintenance and information technology. We believe free cash flow is a useful adjunct to cash flow from operating activities and other measurements under GAAP, since free cash flow is a meaningful measure of our ability to fund acquisition and development activities and meet our debt service requirements. In addition, free cash flow excluding income distributions to noncontrolling interests provides an investor with an understanding of free cash flows that are attributable to DaVita Inc. Free cash flow is not a measure of financial performance under GAAP and should not be considered as an alternative to cash flows from operating, investing or financing activities, as an indicator of cash flows or as a measure of liquidity.
